Elsevier Health Sciences, United Kingdom, 2016. Paperback. Condition: New. 3rd Revised edition. Language: English . Brand New Book. This Workbook accompanies Laboratory Testing for Ambulatory Settings: A Guide for Health Care Professionals and includes chapter review and application exercises, and competency skills checklists for each lab skill. Chapters are organized into five sections: 1) terminology exercises, 2) review questions for fundamental concepts, 3) procedures, 4) advanced concepts, and 5) check-off procedure sheets for all the procedures presented in the textbook chapter. Review exercises test your knowledge of terminology, with exercises challenging you to match vocabulary terms with their definitions and to identify common acronyms. Skills checklists ask you to read, perform, and check off each step on the sheet to track your progress as you perform the chapter's lab procedures and analytical tests. A useful appendix includes forms for documenting safety, quality assurance, and CLIA compliance. NEW practice exercises match the text with a focus on new technology and significant advances made in recent years, including the latest CLIA waived test methods. NEW Electrocardiography and Spirometry chapter includes review exercises, questions, and skills checklists for these diagnostic tests.
