AMONG the comparatively few people in England who take any interest in philosophy, religion, metaphysics and allied subjects, it is certain that Nietzsche s works have during the last year or two been studied with increasing attention. It is not, perhaps, surprising that his views should have been at first received with astonishment and impatience ; for England seems fated to be separated from the Continent, wherever thought is concerned, by a distance which it takes a quarter of a century to traverse. Again, the absurd methods of teaching foreign languages adopted in our schools cut us off from communication with many an excellent book or review article which shows the trend of the times abroad, particularly in Germany and Italy, the two countries where the philosophy of morality has been for some years in its most flourishing condition. Nietzsche and his school, however, have come to stay; and I merely mention these matters by way of showing that, if any views on the moral side of religion expressed in the following pages should seem strange to the less advanced section of the British public, they are nevertheless founded on a basis which has the authority of most of the best Continental thinkers of repute: the Nietzschean standard of good and bad. What is good? Everything that increases the feeling of power, the will to power, power itself, in man. What is bad? All that proceeds from weakness. What is happiness? The feeling that power is increasing, that resistance is being overcome. The pages that follow, then, do not merely record the main principles of the most important religions of the East, but they also indicate an...
