Reviews

This pdf is definitely not easy to get started on studying but quite entertaining to read through. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

GRIN Verlag GmbH Aug 2014, 2014. Taschenbuch. Book Condition: Neu. 213x151x5 mm. Neuware - Scientific Essay from the year 2011 in the subject Philosophy - Philosophy of the 19th Century, grade: PhD student 4th year, Saint-Petersburg State University, course: Philosophy of Science, language: Russian, abstract: The research has been undertaken to clear up a connection between one s Weltanschauung, and epistemological methods and creative activity outcomes. It is agued that a particular author world view is always a part of a bigger cultural platform and as a consequence all the results of creators belonged to the same culture are to some degree preconditioned. The conditions in question are represented by a peculiar for a given culture conceptual framework which shapes very questions asked as well as the way they are answered. The aforementioned issue has been investigated on the Tsiolkovsky space ship example. The Viennese Wittgenstein architectural project has been taken as an antithesis. The result of investigation shows how world views of Tsiolkovsky and Wittgenstein shape their respective epistemological and creative methods and their creative activity outcomes. The paper is in Russian (the title and the abstract are in English due to technical limitations of the publisher and distributors). 52 pp. Russisch.
