In many areas, the answer is simple: isolation from colleagues, lack of technology and skewed expectations of how a physician must practice in a rural community. And so, we have 25 percent of Americans living in rural areas, but only 10 percent of physicians choosing to practice there. Dr. Eron G. Manusov has a plan showing how, one by one, those reasons for avoiding a rural practice can be turned around to point the way toward improved health care for millions.
