It was completed over a twelve year period which included a number of in loco visits to Israel. He investigated all 409 references to birds mentioned in Christian Bibles, ensuring that the original Hebrew and Greek texts are reproduced as accurately as possible. Part 1 covers the development of Ornithology from ancient times to this day. It focuses on the Biblical authors like Moses and Job, ancient writers like Aristotle, carries on through the Middle Ages, and right up to modern times. Influences from the likes of Darwin, Audubon, Gilbert White, and Eugene Marais are dealt with in detail. Relevant subjects like migration, extinction, bird-strikes, and nomenclature, are also dealt with. Part 2 deals with the development of all Bibles, and shows how this three thousand year long process influences the way that we have to deal with Bibles in general....
